COMPANY PROFILE

Hunan BKMAM Holdings Co., Ltd. is a domestic emerging enterprise in the field of biomedical laboratory consumables, which is deeply involved in the field of biomedical laboratory consumables, relying on high-precision injection molding process and technology, automatic assembly technology for plastic products and other core technologies. After 7 years of forging ahead and developing vigorously, we have carefully created independent brands such as **BKMAMLAB®** **湘玻** **Labshark®** **艾德特** and so on, and have a number of invention patents. A one-stop service system integrating R&D, production, sales and after-sales service has been formed. It has built a 10,000-class purification workshop and obtained ISO9001 quality management certification. It has a 28,000㎡ production, storage and sales center, and expanded a number of production lines. At present, a product matrix covering multiple series of laboratory plastic consumables, laboratory glass consumables, liquid treatment, microorganism and cell culture, sample processing, and biological reagents has been formed. The company implements a multi-dimensional operation strategy, recruits talents, and promotes online and offline simultaneously, forming a large market pattern with Changsha as the operation center, Changde as the supply chain center, across Hunan, and radiating across the country. Serve major universities, biomedical companies, testing institutions, hospitals, disease control centers, and agents and distributors in the industry across the country, with more than 20,000 group customers.

Li Chao, founder and chairman of Hunan BKMAM Holdings Co., Ltd., graduated from Nankai University with a master's degree in clinical medicine. When he was a student, he started this business and operated the first Taobao store. Today, he has established a number of subsidiaries and formed a holding group. Lead the team to create a strong core value and marketing strategy, and lead the company to flourish.....

BKMAM Biotech remembers the mission of helping scientific research innovation and making experiments easier. Practice the value of solving a problem, providing a service, and gaining a trust. In order to realize the vision of becoming a leading domestic and world-class biomedical laboratory consumables procurement service provider, we will move forward bravely and earnestly.

Mission: To help scientific research and innovation, to make experiments easier.

Vision: To become a leading domestic and world-class biomedical consumables procurement service provider.

Values: Solve a problem, provide a service, and gain a trust.

BKMAMLAB®

BKMAM Bio is a high-end scientific research and laboratory consumables brand under BKMAM Biotechnology Co.,Ltd. The brand covers plastic laboratory consumables, liquid handling, microorganism and cell culture, sample treatment, reagents, protection and other product lines. With top quality for BKMAM Bio sterile bags, its has been widely recognized by the market.

Disposable Plastic Petri Dishes (Round / Square)

- Made of polystyrene material with high transparency
- Flat and smooth surface making the cells observed without optical distortion under microscopes
- Stacked design making placement and storage easier
- EO sterilization

Item No.	Specification (mm)	Base Height (mm)	Base Diameter (mm)	Lid Height (mm)	Lid Diameter (mm)	Sterile	Packaging (pcs/carton)	FOB Price (USD/pc)

Disposable Plastic Inoculation Loops

- Made of polystyrene material
- Optional specifications of 1uL, 5uL and 10uL
- Individual packaging (sterile) or 10 pcs per set packaging (non-sterile) available
- Enzyme and pyrogen free

Item No.	Specification	Color	Packaging	Sterile	FOB Price (USD/bag)
110306002	1μL	Blue	1(pcs/bag)	Yes	0.06
110306008	5μL	Blue	1(pcs/bag)	Yes	0.09
110306003	10μL	Orange	1(pcs/bag)	Yes	0.06
110306007	1μL	Blue	10(pcs/bag)	Yes	0.448
110306004	5μL	Blue	20(pcs/bag)	Yes	1.194
110306001	10μL	Orange	10(pcs/bag)	Yes	0.448
110306006	Inoculation needle	Orange	1(pcs/bag)	Yes	0.06
110306005	Inoculation needle	Orange	10(pcs/bag)	Yes	0.896

Disposable Plastic L-shaped Cell Spreaders

- Made of polystyrene material
- L-shaped design, easy to use
- Individual packaging, 5 pcs / set, 10 pcs / set available
- Sterile, enzyme and pyrogen free

Item No.	Packing method	Color	Packaging	Sterile	FOB Price (USD/bag)
110305002	individual package	Orange	100(pcs/bag)	Yes	8.955
110305001	5pcs*50bag	Orange	250(pcs/bag)	Yes	18.657
110305003	10pcs*25bag	Orange	250(pcs/bag)	Yes	14.925

Plastic Cell Culture Plates

- Made of 100% polystyrene material
- Suitable for general cell culture, Non TC treated
- Easy-to-tear independent packaging for easy usage
- Sterile, enzyme and pyrogen free

Item No.	Specification	Adherent Treatment	Sterile	Packaging (pcs/carton)	FOB Price (USD/pc)
110303009	6-well (with lid)	No	Yes	200	0.746
110303006	12-well (with lid)	No	Yes	200	0.746
110303007	24-well (with lid)	No	Yes	200	0.746
110303008	48-well (with lid)	No	Yes	200	0.746
110303010	96-well (Flat bottom with lid)	No	Yes	200	0.746
110303005	96-well (Round bottom with lid)	No	Yes	200	0.746
110303002	96-well (sharp bottom with lid)	No	Yes	200	0.746
110303004	96-well (Round bottom with lid)	No	Yes	200	0.746
110303001	96-well (sharp bottom with lid)	No	Yes	200	0.746
110303003	96-well (Flat bottom with lid)	No	Yes	200	0.746

Adherent Cell Culture Plates

- Made of 100% polystyrene material
- Suitable for adherent cell culture
- Easy-to-tear independent packaging for easy usage
- Sterile, enzyme and pyrogen free

Item No.	Specification	TC Treated	Sterile	Packaging (pcs/carton)	FOB Price (USD/pc)
110307004	6-well (with lid)	Yes	Yes	200	1.343
110307001	12-well (with lid)	Yes	Yes	200	1.343
110307002	24-well (with lid)	Yes	Yes	200	1.343
110307003	48-well (with lid)	Yes	Yes	200	1.343
110307005	96-well (Flat bottom with lid)	Yes	Yes	200	1.343
110307006	96-well (White background and white lid)	Yes	Yes	100	2.687
110307009	96-well (Black background and black lid)	Yes	Yes	100	2.687
110307006	96-well (White background with transparent lid)	Yes	Yes	100	2.687
110307007	96-well (Black background and with transparent lid)	Yes	Yes	100	2.687

ELISA Plates

- Made of 100% polystyrene material
- Suitable for adherent cell culture
- Flat base, even thickness and uniform size for reaction poles
- Sterile

Item No.	Specification	Packing method	Sterile	Packaging (pcs/carton)	FOB Price (USD/pc)
110308001	Detachable 12*F8 white	individual package	Yes	100	3.582
110308002	Detachable 12*F8 black	individual package	Yes	100	4.03
110308003	Detachable 12*F8 transparent	individual package	Yes	100	2.239
110308004	Detachable 8*F12 transparent	individual package	Yes	100	2.239

Disposable Plastic Dropper

- Made of low-density polyethylene material
- Many optional specifications available: 0.2mL, 0.5mL, 1mL, 2mL, 3mL, 5mL, 10mL
- Accurate scale on the surface, convenient liquid sample measurement
- Individual sterile packaging and batch non-sterile packaging to meet your different needs

Item No.	Specification	Material	Sterile	Packaging (pcs/bag)	FOB Price (USD/bag)
110205003	0.06mL/60μL quantitative	Polyethylene	Yes	120	7.463
110205001	0.1mL/100μL quantitative	Polyethylene	Yes	120	8.955
110205004	0.2mL	Polyethylene	Yes	120	7.463
110205005	0.5mL	Polyethylene	Yes	120	7.463
110205009	1mL	Polyethylene	Yes	120	7.463
110205010	2mL	Polyethylene	Yes	120	7.463
110205011	3mL	Polyethylene	Yes	120	7.463
110205007	3mL lengthen	Polyethylene	Yes	120	8.209
110205008	5mL	Polyethylene	Yes	120	8.955
110205006	10mL	Polyethylene	Yes	60	6.716

Serological Pipette

- Different colors correspond to different specifications for easy identification
- Able to reduce the adhesion of liquid to the pipe wall to the maximum extent, and improve the accuracy of sampling
- Clear and concise bidirectional scale design, ideally meeting the requirements of sample addition and reduction
- Additional negative scale for easy liquid absorption and reading
- Equipped with a sand core to prevent liquid backflow
- DNase free, RNA free, pyrogen free, and endotoxin free

Item No.	Specification	Sterile	Packaging	FOB Price (USD/bag)
110204002	1mL	Yes	50 pcs/bag 60 bags/box	7.463
110204005	2mL	Yes	50 pcs/bag 60 bags/box	8.955
110204008	5mL	Yes	50 pcs/bag 30 bags/box	10.448
110204001	10mL	Yes	50 pcs/bag 24 bags/box	12.687
110204003	25mL	Yes	25 pcs/bag 24 bags/box	9.701
110204006	50mL	Yes	25 pcs/bag 12 bags/box	19.403

Cryogenic Vials (Internal Thread / External Thread)

- Made of 100% polypropylene material
- Internal thread vials could withstand low temperature of -196°C
- Able to withstand 15psi, 121°C during sterilization
- Thickened tube wall with scale and writing area
- Silicone loop between vial thread and vial body to ensure sealing under various severe conditions
- Self-standing
- DNase free, RNase free, pyrogen free, and endotoxin free

Item No.	Specification	Thread Type	Sterile	Packaging (pcs x bags / carton)	FOB Price (USD/bag)
110401018	1.0mL	Internal Thread	Yes	100*20	13.433
110401013	1.8/2.0mL	Internal Thread	Yes	100*20	16.418
110401009	3.0mL	Internal Thread	Yes	100*20	18.657
110401008	4.0mL	Internal Thread	Yes	100*20	20.896
110401004	5.0mL	Internal Thread	Yes	100*20	24.627
110401021	1.0mL	External Thread	Yes	100*20	11.94
110401015	1.8/2.0mL	External Thread	Yes	100*20	15.672
110401011	3.0mL	External Thread	Yes	100*20	17.91
110401006	4.0mL	External Thread	Yes	100*20	20.149
110401002	5.0mL	External Thread	Yes	100*20	22.389
110401001	5.0mL	External Thread	Yes	200*10	8.955

Plastic Centrifuge Tubes

- Clear scale on the surface, with white writing area
- Easy to rotate cap with good sealing, allowing for single hand operation
- Cap made of polyethylene, tube made of polypropylene
- DNase free, RNA free, pyrogen free,
- Multiple specifications to be selected from

Plastic Centrifuge Tubes (Bag Packaging)

Item No.	Specification	Description	Sterile	Packaging (pcs/bag)	FOB Price (USD/bag)
110403013	0.5mL	Flip lid	Yes	500	8.955
110403012	1.5mL	Flip lid	Yes	500	8.955
110403011	1.5mL	Free-standing	Yes	500	59.701
110403007	2mL	Flip lid	Yes	500	10.448
110403001	5mL	Screw lid	Yes	100	12.687
110403002	5mL	Flip lid	Yes	100	11.194
110403021	15mL	Screw lid	Yes	50	3.731
110403005	50mL	Screw lid	Yes	25	4.478
110403003	50mL	Free-standing	Yes	25	5.224

Plastic Centrifuge Tubes (Foam Packaging)

Item No.	Specification	Description	Sterile	Packaging (pcs/bag)	FOB Price (USD/bag)
110403008	15mL	/	Yes	50	8.955
110403006	50mL	/	Yes	25	5.224

PCR Tubes / Plates

- Made of polypropylene
- Applicable to mainstream PCR instruments and real-time PCR instruments on the market
- Thin-wall design enabling high thermal conductivity, allowing the reaction liquid in the tube to reach the target temperature as quickly as possible
- Excellent sealing performance, good smoothness when opening the cover. When the hot cover is used, the loss of the reaction volume is less than 0.2%
- Eight-coupled thin-walled tubes with connected but independent tube covers, which is more convenient when using and provides more choices for different experimental purposes

Item No.	Specification	Description	Sterile	Packaging	FOB Price (USD)
110404010	0.1mL	Eight-coupled PCR tube,transparent,flat cover	Yes	125pcs/box	62.687
110404012	0.1mL	Eight-coupled PCR tube,transparent,flat cover	Yes	125pcs/box	62.687
110404011	0.1mL	Eight-coupled PCR tube,flat cover,white tubes with transparent caps	Yes	125pcs/box	62.687
110404009	0.1mL	Eight-coupled PCR tube,dished cover,white tubes with transparent caps	Yes	125pcs/box	62.687
110404002	0.2mL	Single PCR tube,transparent,flat cover	Yes	1000pcs/bag	37.313
110404019	0.2mL	Single PCR tube,transparent,dished cover	Yes	1000pcs/bag	23.881
110404005	0.2mL	Eight-coupled PCR tube,transparent,flat cover	Yes	125pcs/box	62.687
110404006	0.2mL	Eight-coupled PCR tube,transparent,flat cover	Yes	125pcs/box	62.687
110404020	0.2mL	Eight-coupled PCR tube,flat cover,white tubes with transparent caps	Yes	125pcs/box	62.687
110404021	0.2mL	Eight-coupled PCR tube,dished cover,white tubes with transparent caps	Yes	125pcs/box	62.687
110404007	0.1mL	96-well PCR plate,no skirt,transparent	Yes	10pcs/bag	32.836
110404008	0.1mL	96-well PCR plate,semi-skirt,transparent	Yes	5pcs/bag	14.925
110404003	0.2mL	96-well PCR plate,no skirt,transparent	Yes	10pcs/bag	32.836
110404004	0.2mL	96-well PCR plate,semi-skirt,transparent	Yes	10pcs/bag	32.836
110404017	0.2mL	96-well PCR plate,semi-skirt,white	Yes	5pcs/bag	14.925
110404001	0.5mL	Single PCR tube,transparent,flat cover	Yes	1000pcs/bag	26.866
110404022	/	384 well plate (transparent)	Yes	25pcs/box	3.582
110404013	/	Sealing film (transparent)	Yes	100pcs/bag	7.463
110404014	/	Sealing film (with printing number)	Yes	100pcs/bag	7.463

Pipette Tips (Bag / Rack Package)

- Made of polypropylene material, featuring high transparency, high quality and high precision
- Able to match various pipettes from many brands at home and abroad
- Produced in dust-free workshop, enzyme and pyrogen free
- Smooth inner wall to prevent leakage and residue
- Multiple types for you to choose from, including regular tips, the ones with filter and low absorption tips
- EO sterilization for boxed pipette tips

Sterile Sampling Bags / Homogeneous Bags (Iron Wire Closure)

- Made of raw polyethylene material, transparent, flexible, safe and pollution-free
- Delicate design on both sides, making it easy to open, avoiding contamination of the sample in the bag
- Iron wire sealing, effectively preventing sample leakage and at the same time making it easy to transport
- Convenient pre- "easy tear" sealing line
- No side sealing, preventing liquid leakage
- Optional writing area, making the bag to be clearly marked
- Multi-Spec to meet different needs
- EO (ethylene oxide) sterilization
- Third party test report available

Without Writing Area/Transparent (Box Package)

OEM and Customization Available

Normally the volume to be hold should be less than 1/2 of the max. volume. And the optimal status should be less than 1/3 of the max.

Application method:

1. Tear open the bag with dotted line seal above one end of the iron wire.
2. In order to avoid contaminating the inside of the ironwire aseptic sampling bag, pull the pull bar on both side outward to open the wire aseptic sampling bag.
3. Careful placement of collected samples in wire sterile sampling bags.
4. Grasp the ends of the wires on both sides of the bag to draw closer to the inner surface of the aseptic sampling bag.
5. Rotate the iron wire aseptic sampling bag two to four times, or fold the iron wire part down two to four times.
6. Fold the ends of the two sides of the iron wire on the sterile sampling bag to keep the seal and prevent leakage.

Sterile Sampling Bags / Homogeneous Bags

- Made of composite material, transparent and flexible
- Wide welding technology used at the bottom, making the bag to be impact-resistant and crack-resistant
- Different self-sealing packaging of 50, 100 pcs per bag for you to choose from
- Various specifications, suitable for sterile sampling, homogenization, etc.
- γ-ray sterilization
- Third party test report available

Autoclavable biohazard bags

- Made of polypropylene composite material with moderate mechanical strength, suitable for collecting all biological waste
- Resistant to high temperature of 125 ° (257 °F) during high heat sterilization
- High resistance to heat, making it reusable during sterilization for laboratory utensils
- Striking biosafety marks on the bag
- Red, transparent and yellow are for your option
- Convenient to use. Optional high temperature resistant sealing strip

Aluminum Foil Gas Sampling Bags

(Customization Allowed)

- Delicate valve design, making gas collection more convenient and faster
- No chemical reaction with the sample, no contamination or absorption of the sample
- Very low permeability, no sample loss
- Made of aluminum foil composite material with excellent physical strength, making it to be reusable
- Turn clockwise till the bottom to close, turn counterclockwise 180° to open
- Inflation pressure should not exceed 3000pa
- Keep away from open flames and high temperature during storage and usage
- Keep away from hard objects to avoid puncturing the membrane
