BKMAMLAB®

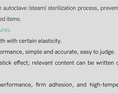

# Autoclave indicator tape

## Used to monitor the sterilization process of items.

## Product Information

### B.Autoclave Indicator Tape

Product Name: Autoclave Indicator Tape

Product Brand: BKMAMLAB®

Product Application: A chemical indicator tool used to stick on the outside of packs of items to be sterilized. It is used to indicate whether the items have undergone the autoclave (steam) sterilization process, preventing confusion with unsterilized items.

Product Features:

①High strength with certain elasticity.

②Stable performance, simple and accurate, easy to judge.

③Good anti-stick effect; relevant content can be written on it with any marker pen.

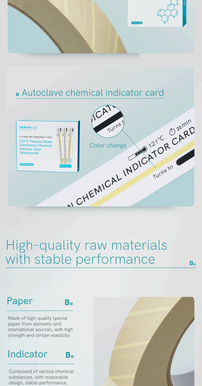

④Excellent performance, firm adhesion, and high-temperature resistance.

Precautions:

1. If the adhesive tape is exposed to air for a long time, the color of the surface indicator will darken, which does not affect its performance.
2. This product cannot be used to judge the sterilization effect; it only indicates whether the items have been sterilized.
3. The color change reaction of the indicator is irreversible. The reacted indicator can be stored at room temperature.
4. If the color change of the indicator is incomplete, please check the color change of the indicator inside the pack.
5. Please use this product within the shelf life.
6. Store sealed in a dry, dark place at room temperature.
7. Do not get damp; avoid contact with acidic or alkaline substances.

## Sensitive color change, accurate indication B.

Observe the color change of the indicator on the surface of the adhesive tape after sterilization is completed.

## High-quality raw materials with stable performance B.

### Paper B.

Made of high-quality special paper from domestic and international sources, with high strength and certain elasticity.

### Indicator B.

Composed of various chemical substances, with reasonable design, stable performance, simple and accurate operation, and easy to judge.

### Anti-stick agent B.

Formulated from various substances, with good anti-stick effect, relevant content can be written on it with any marker pen.

### Adhesive B.

Made of special pressure-sensitive adhesive, with excellent performance, firm adhesion, and high-temperature resistance.

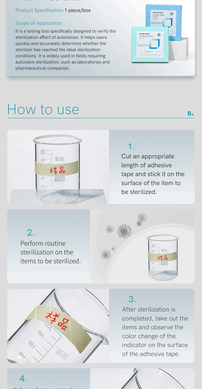

## Easy to operate and easy to use B.
